

First-Year Seminar -- Wilson Section

Annotated Bibliography Assignment
(October 21, 2015)

Please turn in to me at the beginning of class on **Friday, October 30**, a listing of all the bibliographic items (books, articles, films, websites, *etc.*) that you plan to use in your research paper. After each listing (done in the *required* bibliographic style – see research paper assignment and below), please add one line describing the reference and how you plan to use it in your paper. (This would be something like: “This book provides critical first-hand accounts of the Jersey Devil, so I plan to use it as an original source.”) List only the references you actually have obtained, not any that you just hope to get. I expect, of course, that you will be adding some references after this assignment is due, but you should have the large majority of them by October 30. This bibliography will be graded for format and completeness. You may turn it in either as paper or an email attachment.

Some examples of citation styles from the Geology Department Writing Webpage

Paper in a Government or University Serial Publication --

Hay, R.L., 1963, Stratigraphy and zeolitic diagenesis of the John Day Formation of Oregon: University of California Publications in Geological Sciences, v. 42, p. 199–262.

Paper in a Multiauthor Volume --

Kane, J.S., and Neuzil, S.G., 1993, Geochemical and analytical implications of extensive sulfur retention in ash from Indonesian peats, *in* Cobb, J.C., and Cecil, C.B., eds., Modern and ancient coal-forming environments: Geological Society of America Special Paper 286, p. 97–106.

Book --

Twiss, R.J., and Moores, E.M., 1992, Structural geology: New York, W. H. Freeman and Company, 532 p.

Vogt, P., and Tucholke, B., editors, 1986, The western North Atlantic region: Boulder, Colorado, Geological Society of America, Geology of North America, v. M, 696 p.

Journal or Magazine --

Dogliani, C., 1994, Foredeeps versus subduction zones: *Geology*, v. 22, p. 271–274.

Walter, L.M., Bischof, S.A., Patterson, W.P., and Lyons, T.L., 1993, Dissolution and recrystallization in modern shelf carbonates: Evidence from pore water and solid phase chemistry: Royal Society of London Philosophical Transactions, ser. A, v. 344, p. 27–36.

Webpages (our style) --

National Geophysical Data Center, 2005, NOAA's National Geophysical Data Center (NGDC) Homepage [WWW document]. URL: <http://www.ngdc.noaa.gov/>. Accessed October 21, 2015.
